 - ❖ **Where We Work**
 - ❖ **Country Compacts**
3. **Global Launch Event**
4. **Communications Tools/Key Resources**
5. **Closing**

UNFPA Supplies Programme Overview

UNFPA Supplies today

“We are trying to get commodities to women and girls.”

Since 2007, UNFPA Supplies' has:

- increased access to and use of **modern contraceptives** and **maternal health medicines**.
- **enhanced capacity of national health systems to manage these supplies** and to provide family planning, maternal health and HIV-prevention services
- helped family planning be prioritized at the highest levels of **national policies, plans & programmes**

UNFPA Supplies currently supports 46 UNFPA programme countries; additional countries in humanitarian crises; Pacific Island Countries; regional initiatives.

Catalyst for UNFPA's work, working in synergy with UNFPA initiatives and drawing on our strengths

Over US\$1.8 billion mobilized since inception in 2007. Trusted donor mechanism with strong M&E framework.

The Case for Commitment

217 million women who want to avoid pregnancy are not using modern contraceptives.

If all unmet need for modern contraception were satisfied in developing regions, there would be:

- Two-thirds decline in unintended pregnancies
- Three-quarters decline in unsafe abortions
- One quarter reduction in maternal deaths

The COVID-19 pandemic is exacerbating existing challenges to SRHR.

Achieving Global Goals and UNFPA Transformative Results

Sustainable Development Goals

GOAL 3: Ensure healthy lives and promote well-being for all at all ages

GOAL 5: Achieve gender equality and empower all women and girls

UNFPA Transformative Results

Ending unmet need for family planning

Ending preventable maternal deaths

Ending gender-based violence and harmful practices

ICPD Programme of Action/Nairobi Summit on ICPD25

UN Decade of Action

UNFPA Supplies: Impact Overview

Largest UN fund
DEDICATED
to family planning

Over \$1.8 billion USD
mobilized since
inception

Greatest **PROCURER**
of donated
contraceptives

40% of global
contraceptive procurement
for developing countries¹

Key actor to
ACHIEVE
FP2020 goals

Supporting 1/3 of users
of modern contraceptives
in FP2020 countries²

Major **SUPPORTER** for
international CSOs
providing family planning
services

For example, 80% of
contraceptives provided by MSI
in Africa supplied by UNFPA

Contraceptives provided through UNFPA Supplies 2007–2018
potentially averted an estimated:

89 million Unintended pregnancies

1.67 million Maternal and newborn deaths

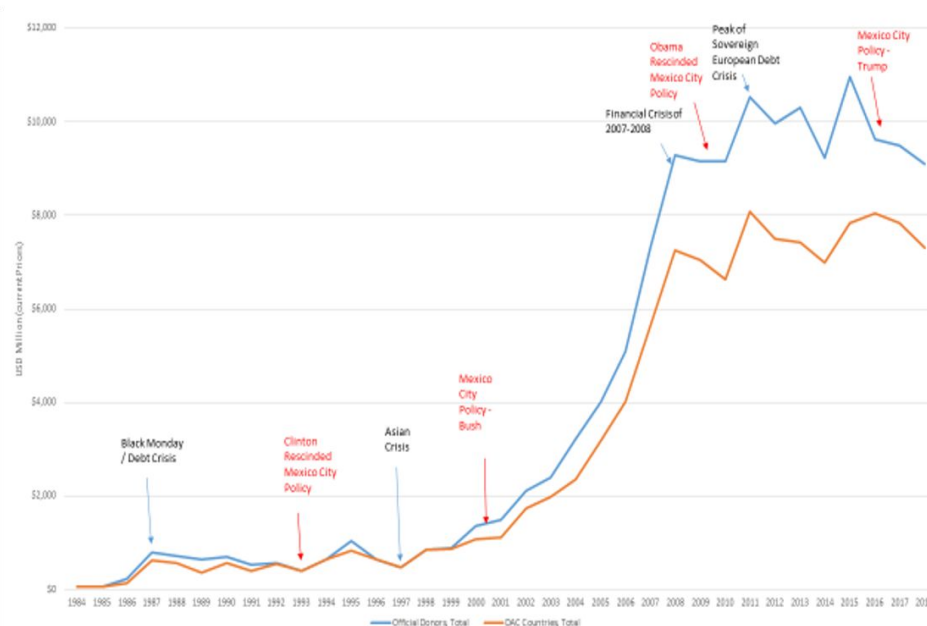

26.8 million Unsafe abortions

And save families and countries **\$3.6 billion** in direct health-care costs

Financing Landscape

- Previous crises demonstrate that ODA to SRHR will decline in line with the aid sector as a whole
- UNFPA revenue is more impacted by changes in political leadership of its major donor countries
- The COVID-19 crisis - unprecedented in scale - could impact the future of UNFPA funding, as much as it has already impacted (SRHR) services needs across the world.

SRHR Funding Trends

About the Partnership: Introducing Phase III (2021–2030)

The UNFPA Supplies Partnership: (2021-2030)

In Sept 2020, after 18+ months of consultation with the global community, Steering Committee endorsed new 10-year strategy.

The Vision: Transforming lives by building a world where everyone can access quality reproductive health supplies

The Partnership represents a new decade of global and country commitment to accelerate progress towards the Sustainable Development Goals.

PARTNERSHIP OUTCOME

Women and girls are able to access and use a choice of quality RH/FP commodities whenever they want or need them.

Key Shifts in the Programme

Taking forward the most significant aspects of past progress, the Partnership builds on extensive programmatic experience, and will place an even greater priority on:

Gender equality
and human rights

Sustainable
financing with
domestic
resources

Tailored and
targeted
approaches to
maximize impact
based on
need/opportunity

Visibility of
commodities to
the last miles, with
performance,
accountability,
and assurance
processes

HOW WE WORK

How We Work:

Strategic Framework—the four pillars

Overall Goal: Contribute to ending unmet need for family planning and preventable maternal mortality by increasing access to high-quality modern contraceptives and life-saving maternal health medicines.

Availability and choice

Increase availability and quality-assured RH/FP commodities

Strengthening supply chains

Ensure RH/FP commodities reach the last mile and promote harmonization and integration of supply chains

Increased government commitment

Country financial contributions to quality RH/FP services are increased
RH/FP is prioritized as core element of sustainable development

Operational effectiveness and efficiency

UNFPA demonstrates robust and accountable programme performance and oversight

How We Work: Three Funding Streams

Funds allocated at global level

Allocated to countries based on need/opportunity

No fixed split in allocations

Contingent on validated supply plans

How We Work: Three Funding Streams

SUPPLIES

Funds a range of contraceptives and maternal health medicines, including for humanitarian crises.

TRANSFORMATIVE ACTION

Funds to strengthen supply chains, improve policy, diversify financing, expand access to new and lesser-used methods.

PERFORMANCE

Funds to build capacity and strengthen accountability and visibility to the last mile, reaching areas most in need through effective and efficient use of resources.

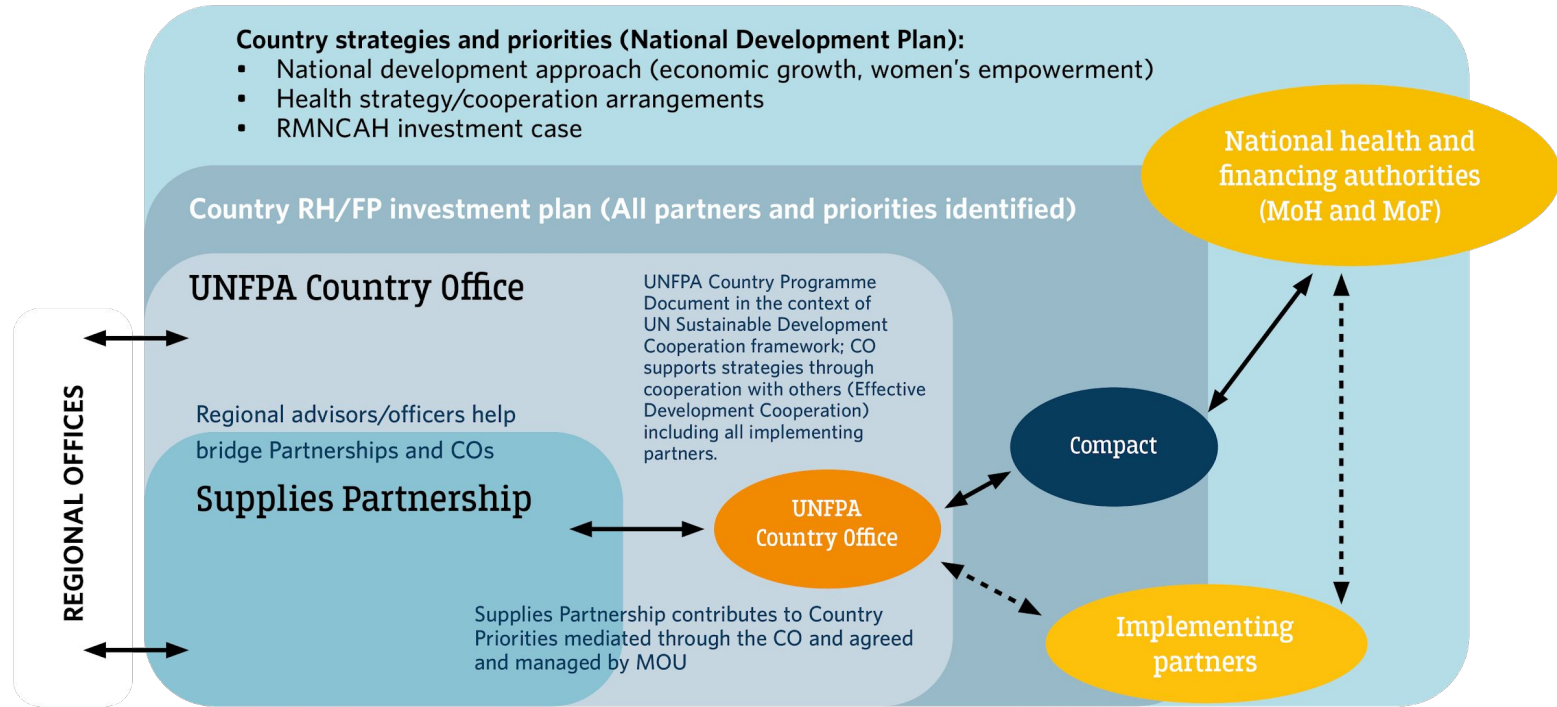

A Compact for Shared Commitment

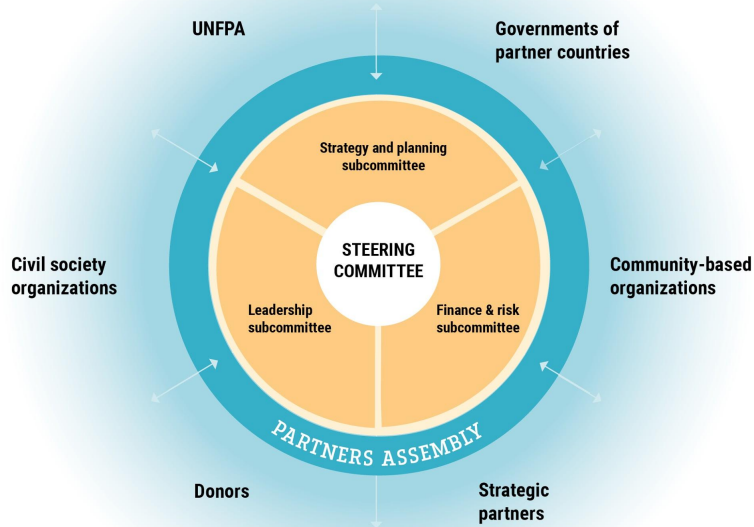

The purpose of the Compact is to realize the goals of the programme, create greater transparency and accountability and clarify how the Partnership works:

- Objectives, terms, roles and responsibilities
- Commitments to gender equality and human rights and a shift to sustainable financing
- Contributions and responsibilities, e.g. customs clearance, storage and distribution
- Cooperation arrangements
- Timetable for programme delivery and contributions
- How to be “a partner in good standing”

How We Work: County-Centered Operating Framework

How We Work: Improved Governance Model

The Steering Committee is composed of members representing critical constituencies convened to solve problems and approve programme strategy, key documents and budgets based on recommendations from three target subcommittees: **finance and risk; strategy and planning; and leadership**

The Partners Assembly engages a broad base of partners from global, regional and country-levels for the purposes of governance, advocacy, knowledge- sharing from programme implementation, advocacy and resource mobilization

WHERE WE WORK

Where We Work: Eligibility Criteria

Resource allocation is
determined by key criteria:

- policies
- systems and capacity
- commitment to health generally
- and family planning in particular
- capability to deliver services and reach the last mile
- current financing level and approach

3

Three widely-used
criteria to determine
eligibility for inclusion

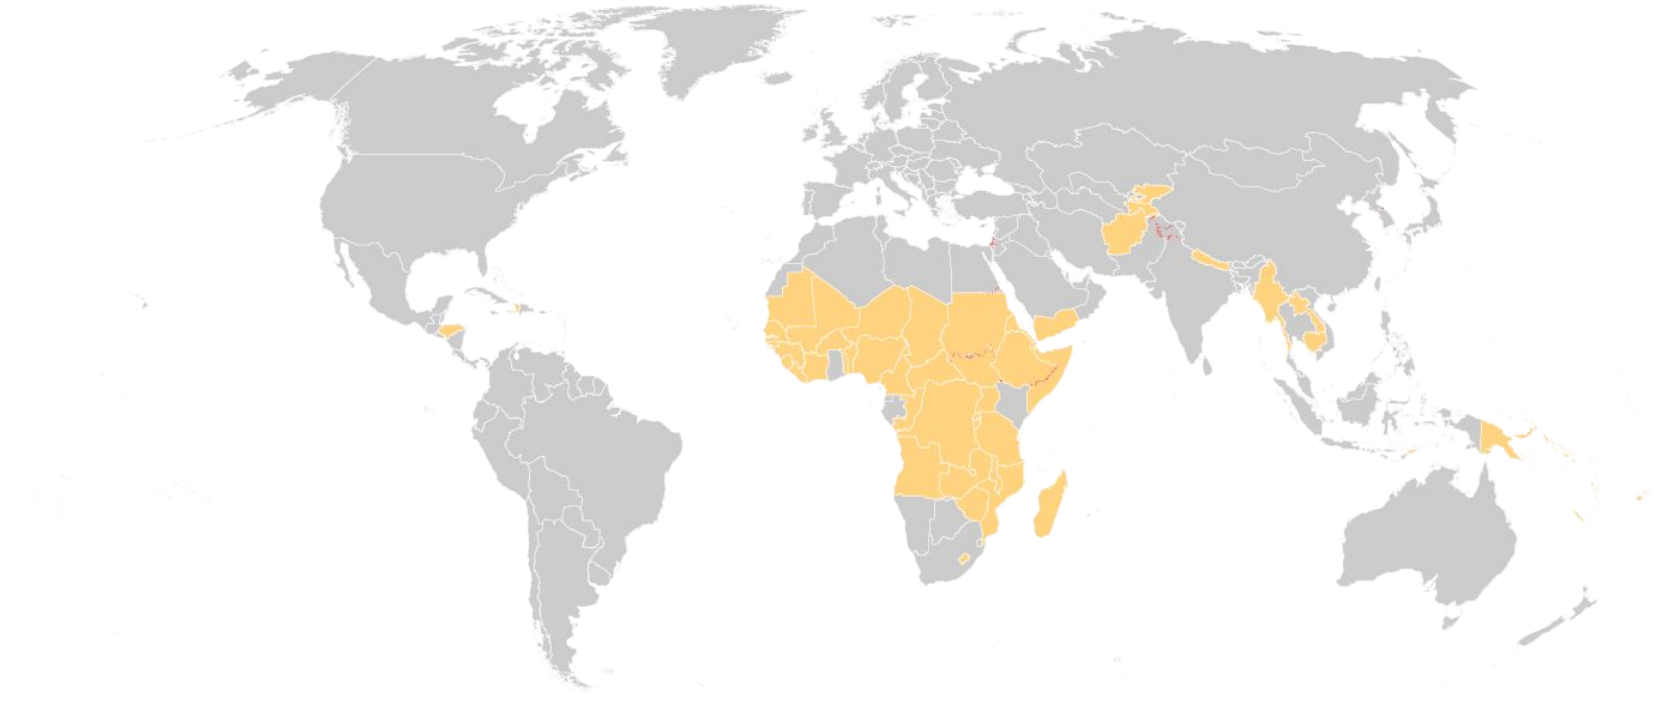

GNI/per capita *(Atlas method)*

Contraceptive prevalence rate *(mCPR)*

Maternal mortality ratio *(MMR)*

Where We Work

The designations employed and the presentation of the material on the map do not imply the expression of any opinion whatsoever on the part of UNFPA concerning the legal status of any country, territory, city or area or its authorities, or concerning the delimitation of its frontiers or boundaries.

Where We Work:

A Pathway to Sustainable Transition

Where We Work: Go the Last Mile

How do we know if reproductive health supplies reach her?

Global Launch Event

Global Launch: December 2020

- Co-hosted by Govt of Canada and Rwanda (tbc)
- Will herald regional and national launches in 2021
- Galvanize global stakeholders and increase visibility for Phase III
- Demonstrate impact to date
- Mobilize and announce new commitments

Closing Remarks

The image shows two women in the foreground, both smiling. The woman on the left wears a patterned headscarf, while the woman on the right wears a plain white headscarf. They are holding informational brochures. The background is a blurred rural landscape with trees and a few people in the distance. The entire image has a warm, orange-toned overlay.

Thank you
