CURATE AND SHARE CONFERENCE RESOURCES

We have partnered with FP insight (fpinsight.org), a free, resource discovery and curation tool built by and for family planning and reproductive health (FP/RH) professionals. Modeled after social media sites such as Pinterest, this digital platform provides users with a space where they can save all of their favorite family planning material and discover new resources for their work, through interactive newsfeeds.

FP insight has over 900 users from over 75 countries and serves as an excellent space for FP/RH professionals to find, save, organize and promote information to a wider FP/RH audience.

To access collections of resources for each of the respective sessions in the IBP Track, visit: ibpnetwork.org/page/fp-insights

SHARE YOUR SRH KNOWLEDGE THROUGH STORYTELLING

The IBP Network believes in the power of a good story. Learn how to use the art of storytelling to document your knowledge of what works in FP/SRH programming, and to convey how effective interventions make a real difference in people's lives.

Read Implementation Stories on local use of global evidence: ibpnetwork.org/page/implementation-stories

Download our list of resources on how FP/SRH efforts can be supported by stories that stick: ibpnetwork.org/page/storytelling-resources
